Pujyashree Bhupendrabhai Pandya
A Morden Saint.....

In today's world of multitasking when one often feels torn apart by various responsibilities and life seems like an unending desert, there are instances when one comes across an oasis which offers us relief. We are fortunate enough to have found on our journey through this vast desert an oasis personified by

Pujyashree Bhupendrabhai Pandya. He has been instrumental in enthusing zest in many lives which had been self confined to stress and monotony. Many shattered souls have quenched their thirst here and have been replenished and rejuvenated at this fountain of '*Triveni*'- **knowledge** based on the Scriptures; **clarity of thought** combined with its application; and **pure love** and compassion for fellow human beings.

Pujyashree Bhai, with his vast knowledge, lucid manner of presentation and proficiency in Gujarati, Hindi and English

has been able to cross the barriers of language and touch many lives. He explains religion in an extremely scientific manner and gives realistic suggestions of incorporating the same in our daily lives. Moreover, there is a glow in his eyes, a warmth in his words and the distinctive ability in his speech to strike the right chord in our heart; which lovingly invites us into the world of spirituality. Through this unique approach he has created a niche in hearts of people world over, especially youngsters who till now looked down upon religion and considered it senseless. There has been an awakening in these very people and religion has been bestowed the pedestal it so rightly deserves. This dramatic change in attitude has been possible only due to **Pujyashree Bhai's** constant endeavors to present religion in a manner which seems within reach of all.

His books, audio/video CDs and tapes on various subjects are enlightening thousands of people globally. His various activities are conducted under the banner of Samakti Seva Partivar, Samakti Foundation, Samakti Mission, USA and Samakti Mission UK.
